

WoundMedix™ Provider Page – Before & After Developer Guide

SECTION 1 – WHY PROVIDERS CHOOSE WOUNDMEDIX™

Before	After (Developer Ready)
Smart Dispatch™ Technology — Precision-mapped routing ensures patients are seen by the closest qualified wound specialist. Advanced Wound Care — Evidence-based treatment for complex and chronic wounds under physician and podiatric collaboration. IV Infusion Therapy — On-site delivery for antibiotics, hydration, pain control, and nutritional therapy. Post-Surgical & Podiatric Wound Management — Drain, staple, incision, and diabetic foot care with photo documentation for podiatrists and surgeons. Pressure Injury Prevention & Recovery — Risk assessments, repositioning strategies, and skin-integrity programs. Burn & Trauma Management — Dressing, tissue stabilization, and pain control with coordinated follow-up. Mobile In-Facility Rounds — Routine wound rounds for SNFs, rehabs, and LTACs. CTA: Download Full Clinical Service Sheet	Smart Dispatch™ Technology Our precision-mapped routing system pairs every patient with the nearest wound specialist — reducing response time, preventing hospital transfers, and keeping healing on schedule. Advanced Wound Care Evidence-based treatments designed for complex wounds under physician and podiatric collaboration. SECTION 2 – HOW REFERRALS WORK

Before	After (Developer Ready)
--------	-------------------------

Step 01 Submit A Referral: Send Referrals Securely Through Our Online Form Or Fax To Our Intake Team. Referrals@Woundmedix.com | Fax: 346-353-8261

Step 01 — Submit a Referral

Send referrals securely through our HIPAA-encrypted online form or fax directly to our intake team.

■ referrals@woundmedix.com | ■ 346-353-8261

Step 02 — Rapid Verification

Our clinical intake team reviews eligibility and confirms coverage or service match within hours.

Step 03 — Smart Dispatch™ Activation

A WoundMedix specialist is deployed — typically within the same day — to initiate care and close the treatment gap.
